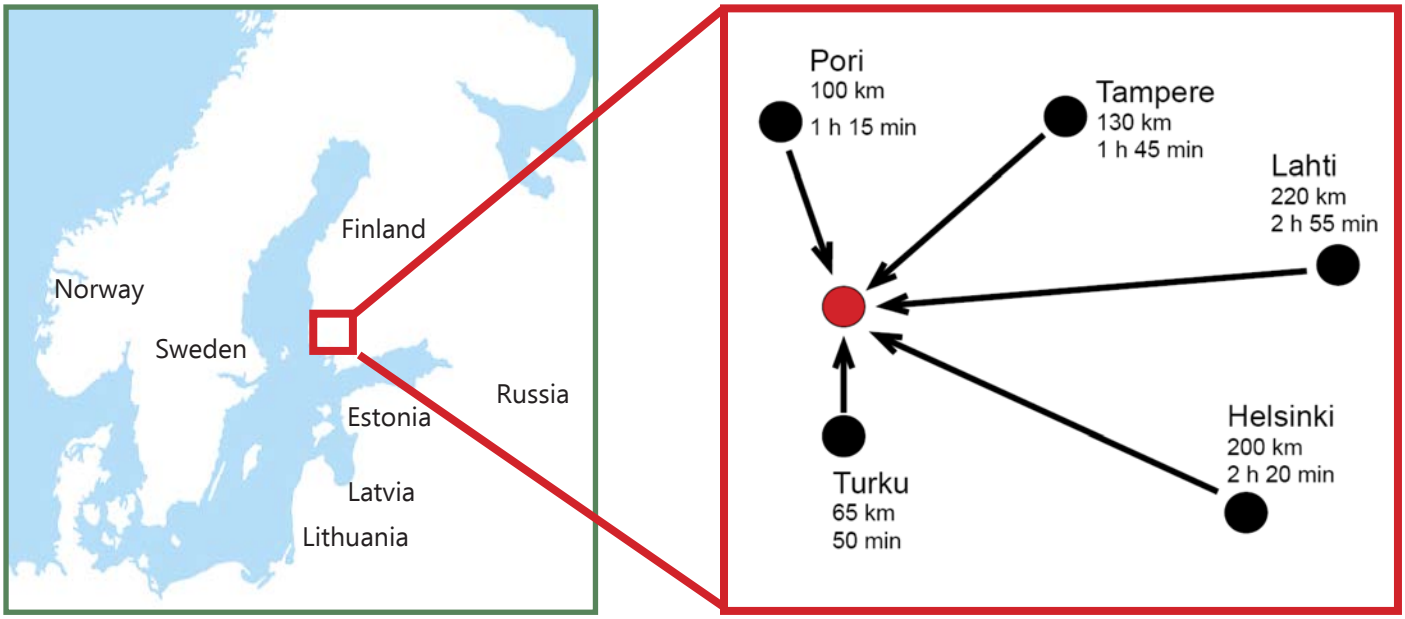
1. LOCATION

The competition area is located in Vaskijärvi area, Southwest Finland.

The competition area covers parts of Pöytyä, Mynämäki and Eura municipalities.



2. SCHEDULE

Friday 23.8.2019

17.30 Road signage ready
18.00 Competition Centre opens
18.00 Competition info at Yläne School opens
18.00 Accommodation at Yläne School opens
21.00 - 22.30 Supper at Yläne school
23.00 Competition info at Yläne School closes
23.00 Silence in Competition Centre and
Yläne School starts

Saturday 24.8.2019

06.00 Transportation starts from Tampere
07.00 Silence in Competition Centre and
Yläne School ends
07.00 Transportation starts from Turku
07.15-08.00 Breakfast at Yläne school
07.30 Competition info at Competition Centre opens
08.00 Canteen opens at Competition Centre
08.15 Transportation from Yläne School
to Competition Centre
09.00 Distribution of maps / 24h & 8h MTB
11.00 Start / 8h MTB
12.00 Start / 24h

... Saturday continues

13.00 Distribution of maps / 4h
14.00 Start / 4h
14.00 Hash House opens
17.00 Warm meal serving at Hash House starts
18.00 Finish / 4h
19.00 Finish / 8h MTB
20.00 Prize giving ceremony /
Finnish scouts junior classes
21.00 Prize giving ceremony / 8h MTB
21.00 Distribution of maps / 8h
23.00 Start / 8h

Sunday 25.8.2019

07.00 Finish / 8h
07.00 Food service at Yläne School starts
09.00 Prize giving ceremony / 8h
11.00 Hash House closes
12.00 Finish / 24h
14.00 Prize giving ceremony / 24h
15.00 Food serving closes at Yläne School
15.00 Transportation to Turku and Tampere
from Yläne school
16.00 Yläne school closes

3. EMBARGOED AREA

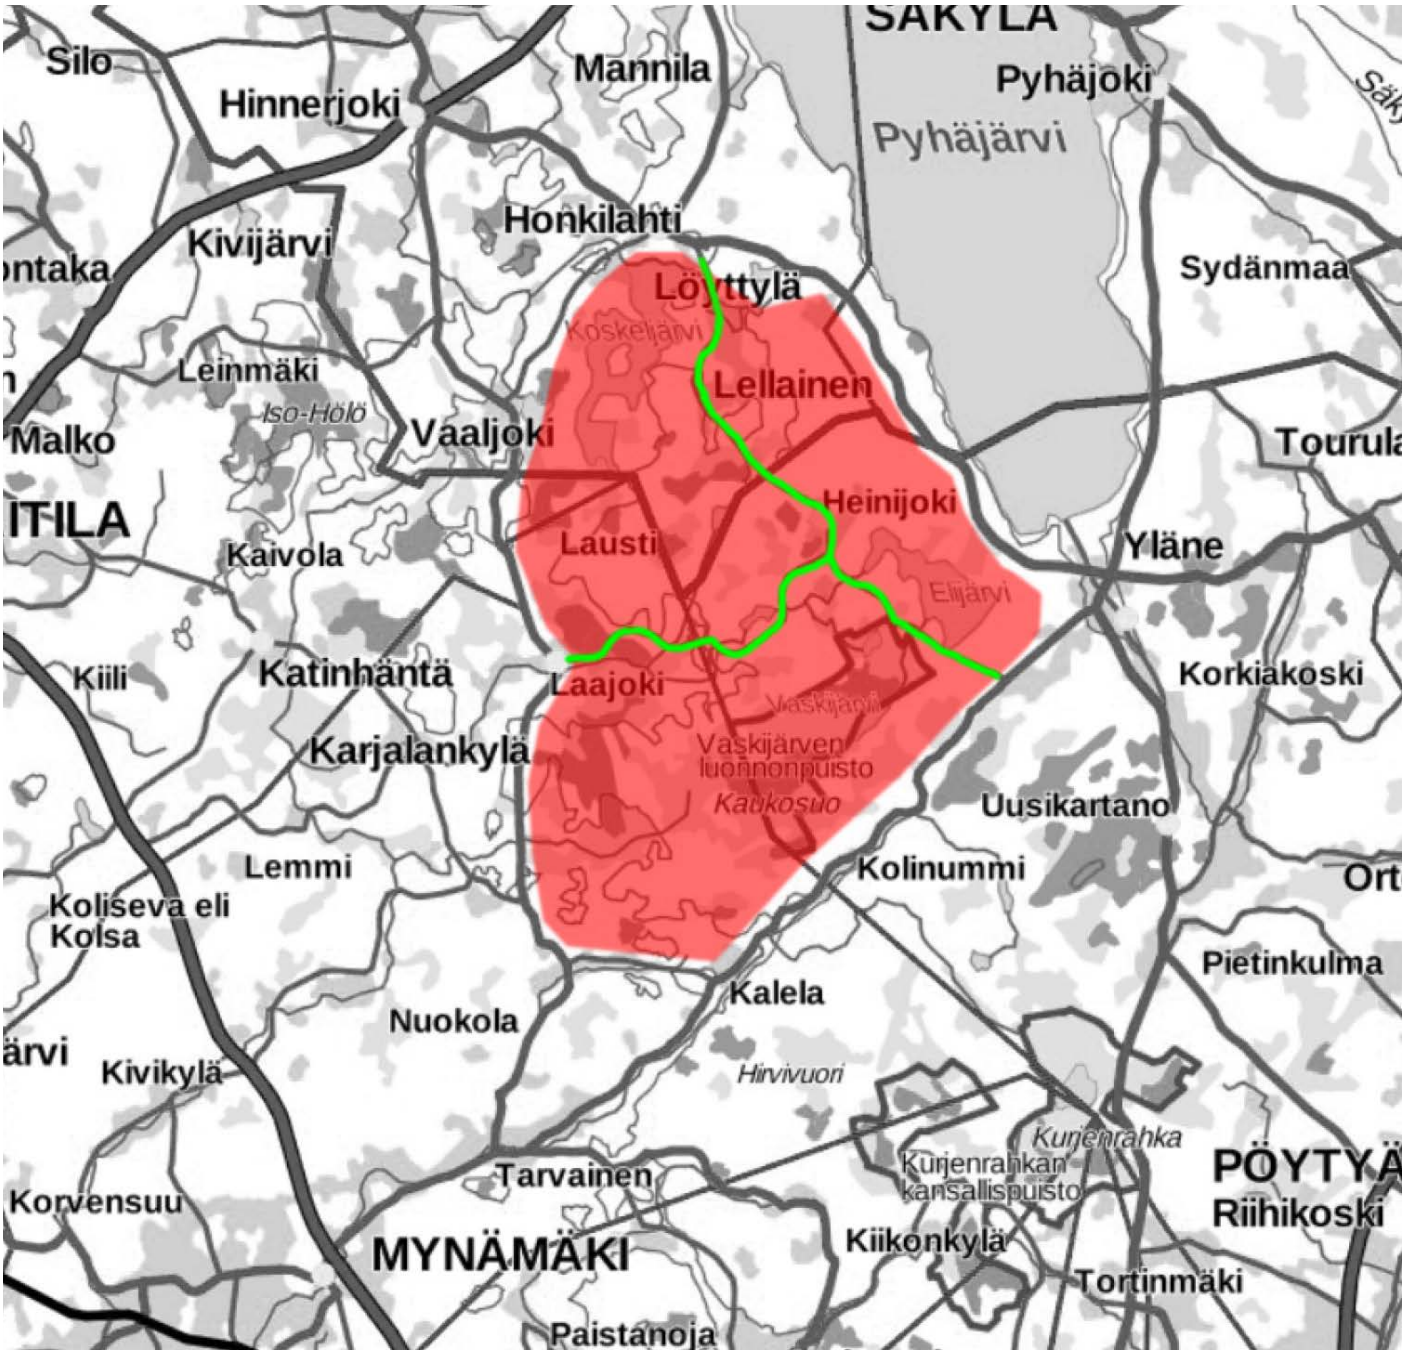
Competitors, team officials, and other persons, who, through knowledge of the terrain may influence the results of the competition, are not allowed to enter an embargoed area between 16.12.2018-25.8.2019.

The restriction covers 24h, 8h MTB and 8h races.

The participants of the 4 h public race are allowed to use the area until Sunday 18.8.2019.

Nevertheless, it is allowed:

- to cross the forbidden areas using the green roads marked on the map.
- to row, paddle etc on the big lakes (Koskeljärvi, Elijärvi)
- to visit the properties in the area, which does not include "walking in the woods"



4. COMPETITION CENTRE & YLÄNE SCHOOL

Competition activities are located in two different places, Competition Centre and Yläne school.

Competition Centre is located in the competition area.

Services **in the Competition Centre:**
- registration on Saturday
- distribution of maps
- route planning
- start
- Hash House (=meals during competition)
- service during competition
- finish
- results reading from the electronic competition card

Services in **Yläne school:**

- registration on Friday
- hard floor accommodation (Friday-Saturday night)
- meals after the race
- washup
- prize-giving ceremony
- bus transport back to Turku/Tampere
- hard floor accommodation, Saturday-Sunday night, (4 h & 8 h MTB).

In Yläne school it is forbidden to wear shoes indoors.

On Friday the Competition info is located at Yläne School and on Saturday at the Competition Centre.

Yläne school is located outside the competition area. Competitors won`t be visiting the school during the race. Competitiors staying at the school shall take all equipment needed in the competition with them when moving to the Competition Centre.
On Saturday morning, there will be transport available from Yläne School to Competition Centre for those, who do not have transportation of their own.

In case the competitors feel too tired to drive after the competition, they can rest in their tents in the competition center.

The distance between Yläne school and Competition Centre is 11 kilometres, driving time 15 minutes.

Competition Centre map will be found in page 15.

Yläne school, map link >>
Guidance start point to Competition Centre, map link >>

5. ACCREDITATION PACKAGE

Teams can collect their accreditation package at Competition info. On Friday it is located at Yläne school and on Saturday at Competition Centre.

Accreditation package includes:

- start number bibs
- safety pins for start number bibs
- sealable package for mobile phone to be taken to the race
- pre-purchased breakfast/evening meal tickets
- free tickets to "Yläne luontokapinetti"
- greetings from Pöytyä municipality

6. ACCOMMODATION

There is hard floor accommodation available in Yläne School for Friday-Saturday night before the competition. Please take your own mattress. There will be no mattresses provided by the organizers.

Teams can also camp at the Competition Centre in their own tents on friday night. At the Competition Centre, there will be drinking water and toilets available already on Friday, but no other services.

4 h & 8h MTB competitors can also use hard floor accommodation on Saturday-Sunday night after the race.

Teams appreciating more high quality accommodation before or after the race, can use services provided by our local commercial accommodation partners:

Kuralan Kartanotila
https://www.kuralankartanotila.fi/
Distance to Competition Centre 12 kilometres, driving time 15 minutes

Sieravuori
https://www.sieravuori.fi/
Distance to Competition Centre 29 kilometres, driving time 27 minutes

Both companies will give -10% discount from normal prices for FRC 2019 competitors. Please mention you are FRC competitor while booking. Reservations are made directly from the accommodation companies.

7. ADDITIONAL CATERING

There will be additional catering available as follows:

- Friday light supper, 6 €/person
- Saturday breakfast, 8 €/person (at the Yläne school)
- Sunday breakfast, 8 €/person
  (4 h/ 8 h MTB staying at school after the race)

Breakfast: Coffee, tea, juice, porridge, bread (+ cheese, cold cuts, salad, cucumber, tomato), joghurt, fruits, boiled egg.

Evening meal: Tea, warm sandwiches, fruity quark.

Additional catering should have been ordered with the registration. You can not order additional catering any more.

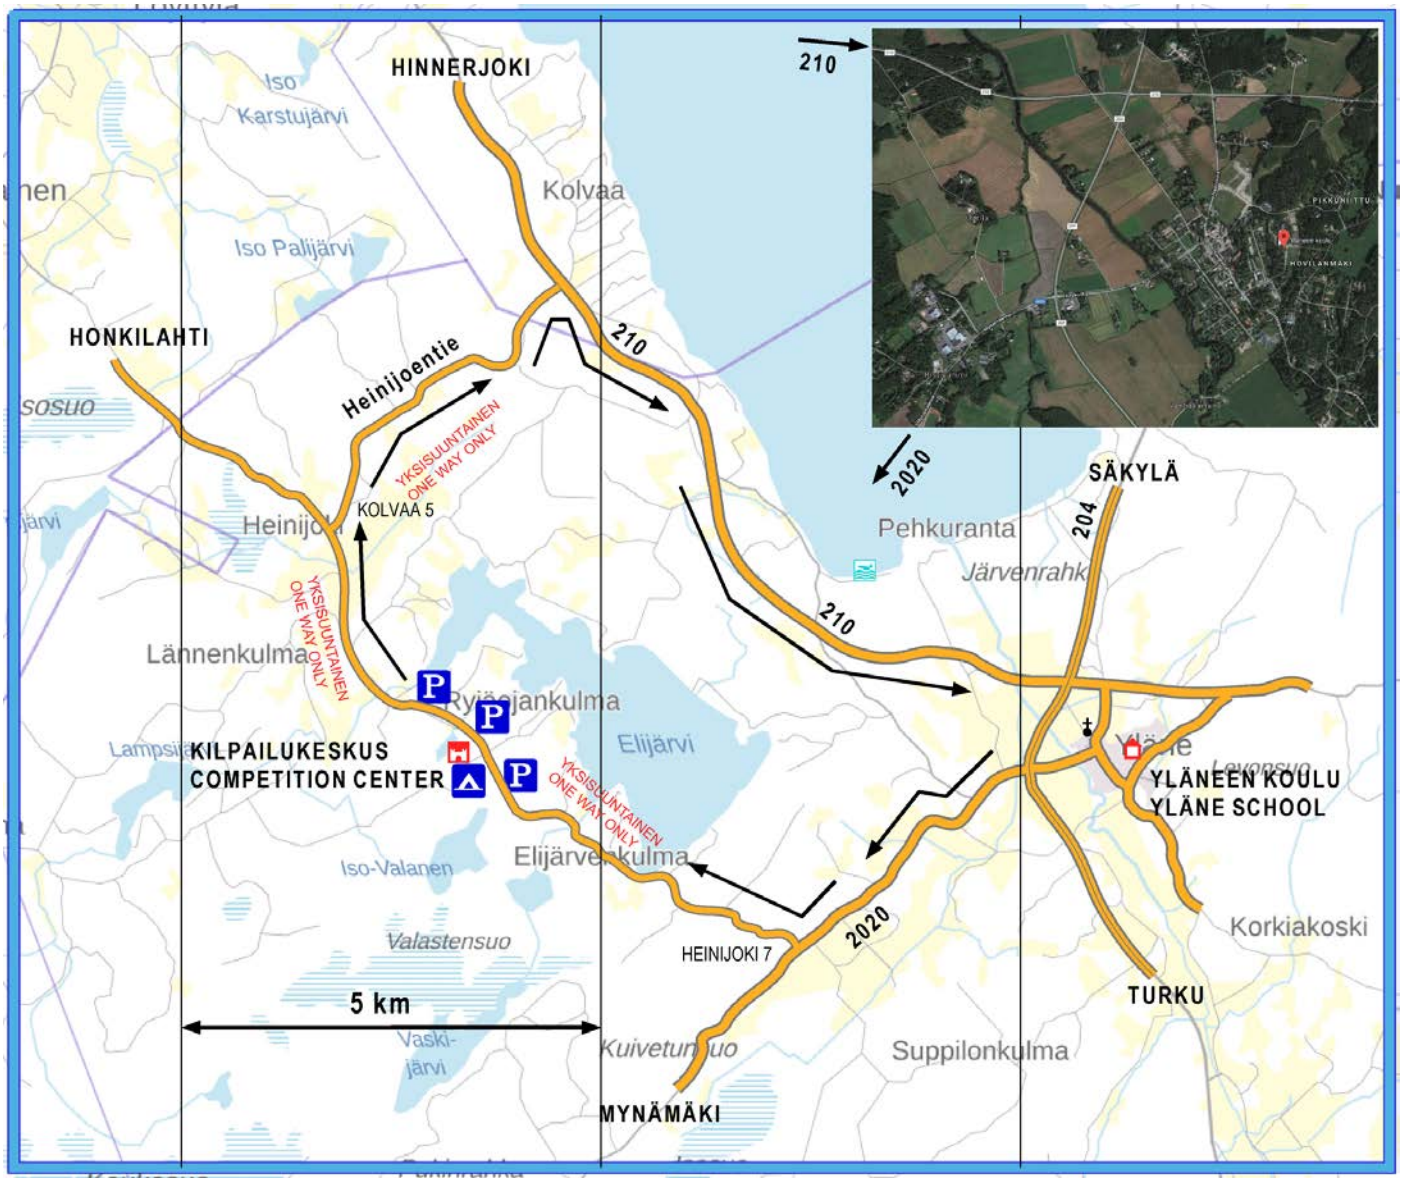
All catering during the race and after finishing the race is included in the competition fee and do not need to be ordered in advance.

8. ARRIVAL AND PARKING

Car parking at the Competition Centre will be implemented as roadside parking. No parking permits or fees needed. The walking distance from parking to the Competition Center is maximum of 900 metres.

Only one side of the road is used for parking. Driving to road Honkilahdentie is permitted only from road Mynämäentie (road number 2020). Honkilahdentie road will be a one-way road during the competition (driving allowed only from south to north). The speed limit close to the competition center is 30 km/h.

While visiting Yläne school cars can be parked on the school yard.



9. MAP DELIVERY AND PREPARING TO START

Maps will be handed out in the start area. Class specific start time table is shown in section "2. Schedule".
The competitors must have their competition bibs visible when coming to pick up their competition maps. Only competitors wearing a bib number are allowed to enter the map area.
To make the map hand-out as smooth as possible, only one member per team is allowed to enter the map area. Competitors may not enter the map area earlier than 10 minutes before the hand-out starts. Each team´s maps are placed in a plastic bag marked with team´s competition number. The maps can be picked up only after the organizers give a permission to do so. After having picked up the maps the competitors are free to start planning their routes, in the competition center in tents or in cars. Delivering of maps on the start area closes one (1) hour after it has started, exluding the 4h race, where the map delivering time is 20 minutes. After those times maps can be picked up at the competition info.

Each competitor must have his/her electric competition card sealed at least half an hour before the start. The card is sealed to the competitors´ wrist at the competition info by the organizers in a way that it can not be unfastened during the race. Punching cards are not included in the team material bags but will be handed out at the competition office, at the sealing point. During the SI-card sealing process, teams will also receive their gps tracking device. Please check that the numbers of SI-cards and gps device are the same as printed in your bib number.

Teams must seal the mobile phone they are taking to the race. The package for the sealing is found in the accreditation package. Phones must be sealed at least half an hour before the start. The power must be turned off before sealing the phones. The bag material itself is waterproof but the tape used for the sealing is not.

Start takes place in the competition center. Teams will enter the start area through a gate, after which:

1. The organizers will check the punching cards are sealed properly
2. The organizers will check that the team has the mandatory equipment to be carried during the competition
3. Checking for forbidden device (Please see chapter 34, rules interpretations)
4. The punching cards are punched for clearing them
5. The punching cards are check punched
6. The punching cards are start punched

All team members must enter the start gate at the same time, via the same checking line, to enable the obligatory team gear checking process to be executed smoothly.

All teams that lack the start punch will be disqualified, unless the jury of the competition decides otherwise.

After entering the start area the competitors are no longer allowed to exit the area untill the start has taken place. If a competitor for some reason leaves the area before the start, must (s)he enter the area again through the gate and repeat the steps from 1 to 5.

The seals of competition cards and phone bags will be checked at the finish. A broken seal will disqualify the team until the Jury decides otherwise.

The competition start is located at the Competition Centre.

10. ROUTE PLANNING

There is no indoor space available for route planning at the Competition Centre.

Teams are encouraged to bring their own tents to be used while planning the route. While the tent area is mostly forest, it is easier to use a compact hiking tent than a bigger camping tent.

There will be some rain shelters at the Competition Centre for the teams that do not have their own tent, to be used if rain occurs.

Teams are also allowed to do the route planning in their own cars. It is forbidden to move the car after the delivering of the maps has started. Moving the car after the delivering of the maps has started will set the team as disqualified until the Jury decides otherwise.

The use of computers, tablets, smart phones or any other similar electronic devices is forbidden in route planning.
The organizers have the right to control the rule being followed for example by visiting the competitor tents and cars.

Route planning must take place within the competition center. This includes the road side parking area.

11. MAPS

The competition map is mapped in 2019, scale 1:30 000, contour interval 5 m, map size A1 (594 x 840 mm). Maps will be high quality printed. 4 h race will have medium quality printed map, size A3.

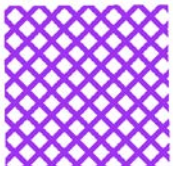
Maps will be printed on waterproof and tear resistant synthetic paper.

Although the map paper is water resistant, the printing might not resist continuous several hour rain with rubbing. On rainy weather, please use plastic map cover provided by the organizers. Plastic map cover is A2 size, in 4h class A3 size.

Each member of a team will get his/her own map.

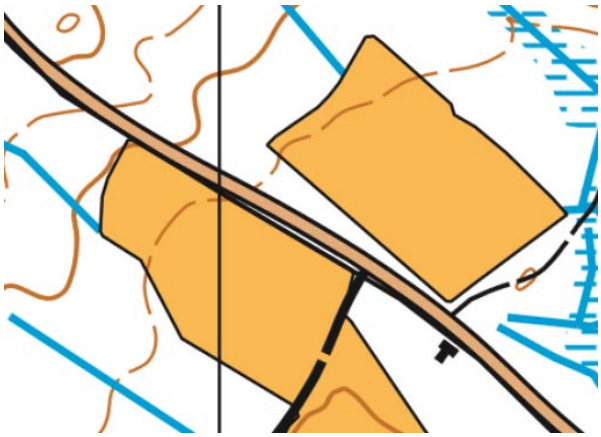
There will be some destricted areas marked on the map.

Forbidden areas are indicated with the following symbol/ marking on the map:

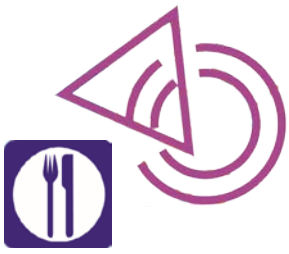


Besides are all private properties/yards marked in olive green forbidden areas. It is allowed to use roads going beside the private properties. In some places, olive green colour has been removed, to show allowed passages through private yards.

All fields and meadows marked yellow in the map are out of bounds. The organizers will monitor illegal field passaging with gps tracking. To achieve optimal route choices, there should be no need to pass any fields or meadows.



The start is marked with a triangle and the finish is marked with a double circle. Start and finish are very close to each other, so the symbols partly overlap on the competition map. Hash House is located near start and finish in the competition center.



12. TERRAIN AND RESTRICTIONS

The competition area is very diverse and can be divided in different types of terrain. In the north there are cultivated and more populated areas typical for south-west Finland. Most of the area has a dense network of forest roads.

The southern part of the area includes one of the southern Finland's most isolated forests, the Vaskijärvi strict nature reserve, which is out of bounds for the competitors. However the areas surrounding the nature reserve are often similar to it, having wide marshes and primeval forests.

The competition area can be said to include almost all types of terrain found in south-west Finland: open marshes, hills composed of bare rock, agricultural areas, lake shores, and coniferous and deciduous forests. The majority of the forests in the competition area are harvested regularly, so there are a lot of different age thickets and recently planted areas. The orienteering also varies in different areas. There are very detailed areas as well as larger forms, offering both detailed orienteering and challenges for choosing the right route.

Vaskijärvi Nature Park is STRICKTLY OUT-OF-BOUNDS but you may use the paths marked on the map to cross the park. The organizers will control that the competitors only use the park paths and do not enter other park areas. Controlling this is performed in real-time by following competitor gps signals from the terrain, and also by organizers patrolling in the park area. Park limits are indicated in the terrain by info plates. You must respect all the out-of-bounds areas marked on the map. Entering forbidden areas will lead to disqualification.

Be careful not to damage recently planted new forest areas.

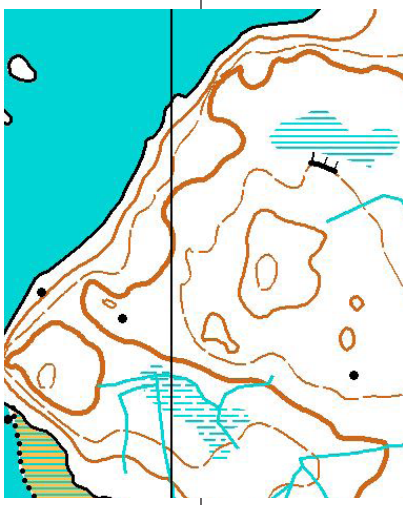
It is forbidden to leave any kind of litter on the track.

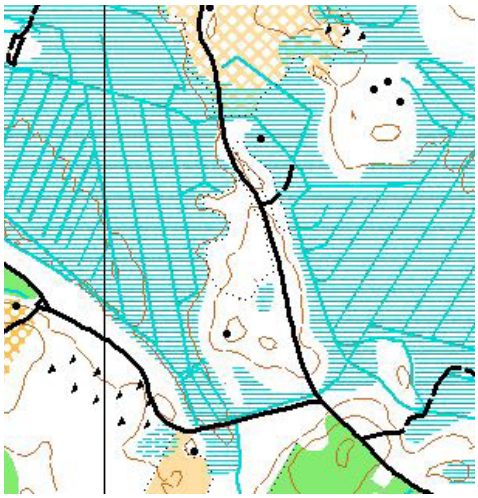
The duckboards (http://sm2019.turkurogaining.fi/attachments/Image/maisema_2.jpg) in Vaskijärvi Nature Park may be in very poor condition. Pay extra attention where you place your feet when you run along the duckboards in the park.

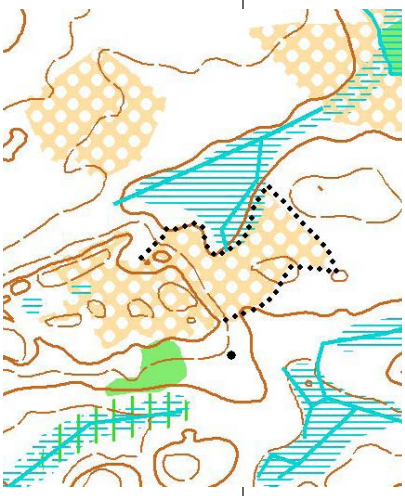
The MTB class restrictions (forbidden areas) are informed in Section 37 on page 12.

On the two resting place along the marked Vaskijärvi route, there are mailboxes containing Vaskijärvi nature reserve quest book. Competitors are encouraged to make a note of their visit to the quest book.

Map samples (not in right scale)







13. CONTROLS AND PUNCHING SYSTEM

Each control site is equipped with an orange-white control flag, a reflector and with an electronic punching unit. All controls sites will have only one electronic punching unit. Teams should notice this especially on the controls near the start. There will also be a mechanical pin punching device in case if the electronic punching unit fails. There are reserve punching slots (R1-R4) in one corner of the map to be used with mechanical punching. Reseve punching slots should be used in numeric order despite the control number.

Control descriptions are printed on the front side of the competition map. Loose copies of the control descriptions (not water resistant) will also be available.

The control descriptions follow IOF control descriptions from 2018.

The electronic punching system used in the competition is SPORTident (SI). The SI cards are provided by the organizers. You cannot use your own SI cards. Some of the cards are SI ActiveCards (SIAC). Regardless of the card type, the punching is done by placing the punching cards narrow end to the punching station hole so that there is a physical contact between the card and the station. Successful punching is indicated by both an optical (LED flash) and acoustic (beep) feedback. You can test punching in the competition center at the model control.

A lost SI card will cause a 80 euro fee.

SI-cards:

SI punching unit:

14. PUNCHING & VISITING CONTROLS

All team members must stay together, i.e. within 20 metres from each other during the whole race and all team members must punch within 90 seconds.

The 20 metre rule can be ignored while the whole team is staying at the Competition Centre.

Competitors are not allowed to rest within 100 meters from control, unless the control is a refreshment control.

15. COUNTING POINTS

The controls are numbered from 10 to 110. The first control digit indicates the control value. For example, control 24 produces 2 points. Controls with three digits are worth 10 points. For example, control 110 produces 10 points.

The are some 80 controls in 24h and 8h classes. Collecting all the controls leads to a route that is clearly over 140 km.

In 4h class there are clearly less controls than in the longer classes.

The team that collects the biggest amount of points is the winner of the class. If two teams collect exactly the same amount of points, the faster team is the winner.

If a team enters the finish late (after the specified ending time of the class), four (4) points will be deducted per each minute starting from the class ending time.

If a team is more than 30 minutes late, it will be disqualified.

16. REFRESHMENT CONTROLS

There are 3 main water stations in the terrain. These are marked on the map with the following symbols:

Water is available at the main water stations. The teams can also leave their own bottles to be transported to the main water stations by the organizers. Bottles to be transported must be left to specific baskets at the competition center. The bottles must be clearly marked with the team competition (bib) number.

The baskets are marked with numbers that correspond with the water station number on the map. There are different baskets for each competition class (for example: "Water station 1, 24h"). Make sure that you place your bottles to the right basket - regarding both the station number and competition class.
The water station baskets are placed at the competition center in a place that will be given in Bulletin III. The water bottles are transported to the water stations within a maximum of one hour since the start of each class. The transportation service applies only to bottles containing liquids. Anything else, for example energy gels or drink powders, will not be transported to the water stations by the organizers.
You may leave empty bottles to the baskets in the water stations to be transported back to the competition center. Make sure that these bottles are clearly marked with the team number. Anything else than empty bottles will not be transported back to the competition center by the organizers.

The maximum amount of drinks to be transported by the organizers is 3 liters per team member, per main water station.

In the 4h race, there is only one main water station (water station number 2) where own bottles can be left to be transported.

Besides of main water stations there are additional water stations in the terrain which only provide water. These stations are not manned and they may for example be local wells or taps in buildings. These unmanned stations are marked on the map with the same symbol as the main water stations but without a number.

Water stations might not be on the main road. They might be placed on the smaller side roads crossing the main road. Please check carefully the center point of the water point symbol on the map. Two water stations are placed on the control points. On those places, the water station symbol is beside the control point circle and does not tell the exact place of the water point. Control descriptions tells which control points works also as water stations.

17. HASH HOUSE

During the competition competitors can eat and drink in the Hash House located at the Competition Centre.
Hash House opening hours:

Saturday 14.00 - 17.00
Cold snack available

Saturday 17.00 - Sunday 11.00
Warm food available

Warm meal menu:

- Macaroni casserole + salad
- Vegetable soup + cottage cheese

Drink options: Water, juice, coffee, tea, milk, hot chocolate

Competitors can visit Hash House as many times as they want, eat as much as they want. Some restrictions of amounts of some products may occur.

You must eat all the food you take from Hash House in the marked dining area. You are not allowed to take any food with you away from the Hash House. This way we can quarantee the sufficiency of food to all competitors.

You can eat at the Hash House only during the race. After the competitors have finished the race, they are not anymore served at Hash House but are asked to move to Yläne School where they are served in the school restaurant. (Plese check exception for teams entering finish at the night time in chapter 23).

Hash House service during the race and the meal after the race in Yläne school are included in the entry fee.

18. TRANSPORTATION

There will be bus transport available to the Competition Centre as follows:

- From Tampere, Saturday 24.8.2019, 06.00
- From Turku, Saturday 24.8.2019, 07.00

Starting points for the transports:

Turku: Turku Bus Station, Läntinen Pitkäkatu 9, 20100 Turku

Tampere: Tampere Bus Station, Hatanpään Valtatie 5-7, 33100 Tampere.

The transportation will take you directly to the competition center (not via the school).

Return transportation from Yläne school to Turku/Tampere on Sunday 25.8.2018 at 15.00.

The return ticket from Tampere costs 25 € and from Turku 20 €.

Registration to the transports has already closed. You can not register to the transports any more.

19. EQUIPMENT

Each competitor must have (obligatory):
- a whistle
- a safety reflector (8 h & 24 h)
- a helmet (8 h MTB)

Each team must have (obligatory):
- a mobile phone, sealed in the package provided with the accreditation package
- a first aid kit
- gps tracking device (provided by the organizers)

Recommended equipment for each competitor:
- a water container
- some food
- compass
- torch (e.g. head light) (24 h & 8 h)
- wind/rainproof jacket (according to the weather)

Recommended equipment for each team:
- a knife and matches (waterproof packed)
- emergency blanket (24 h & 8 h)
- hiking tent (to be used while planning the route and as a teams own service tent at the Competition Centre)
- a water proof bag (for example a plastic grip bag) to protect the sealed mobile phone bag

Safety reflector must be visible on twilight/dark times.

8 h MTB competitors must wear helmet on their head all time during the race, also when running/walking without the bike. The helmet can be dismantled when staying at the Competition Centre.

All obligatory equipment must be carried at all times. You cannot leave any obligatory equipment on the trail, not even for a short period of time. However, you can leave other than obligatory equipment on the trail, but only after the start of the race and you must have it with you when you finish your race. You are not allowed to leave equipment on the trail and pick it up after the race.

Teams are free to complete their non-obligarory equipment during the race at the Competition Centre.

20. MAKING OPEN FIRE AND USING STOVES

There are two fireplaces along the marked hiking routes where making of open fire is allowed, in case the forest fire warning is not valid. On those places, there are also latrines. Latrines are not equipped with toilet paper by the organizers. These places are marked on the map as follows:

Making open fire is prohibited elsewhere.

The firewood situation on Friday 9.8.2019 has been as follows:

On the southern fireplace there is a several cubic meter pile of firewood.

On the northern fireplace there is only a small amount of branch collected from the ground. A bigger pile of firewood is located 400 meters nortwest from the fireplace along the hiking route.

Firewood piles are not covered from rain.

On the Competition Centre there will be fireplace maintained by the organizers all night long, which can be used as warming or drying clothes. Otherwise making open fire at the competition center is prohibited.

Using of own stoves is allowed all over the competition area, with sufficient caution.

Additional restrictions of making open fire and using own stoves may occur if the terrain is extraordinary dry.

Smoking on the route is prohibited according the IRF rogaining rules. In the competition center there is one smoking place, marked on the competition center map.

21. GPS-TRACKING

All classes will be gps-tracked. All teams must carry a gps device provided by the organizers all the time during the race. The power of the gps tracking device must not be turned off. The weight of the tracking device including batteries is 93 grams. In the 4 hour race the tracking device will be a little bit lighter.

The routes of the gps equipped teams can be followed online on the competition www-pages during the race. There will be some time delay in the tracking to minimize the possibility of misuse.

The tracking will be available after the 24 h race has started.

The tracking can also be followed on the screen in the Competition Centre.

A lost gps device will cause a 250 euro fee.

22. IN CASE OF EMERGENCY

If your team faces an emergency during the competition, you must notify the organizers of the event immediately for further assistance, if it is needed.

In case of life threatening emergency, you must call 112, the common emergency number. In case you call the common emergency number, remember also to call the competition office at +358 44 575 9223.

If it is a less hazardous emergency, please call the organizers´ number +358 44 575 9223. There is a 24 hour service at this number. Please register this number on the mobile phone which you carry with you during the race.

You can switch on your mobile phone during the race, but only in case of emergency. Using of mobile phones will be monitored. You may call +358 44 575 9223 also if a checkpoint has been vandalized, there is no water at a water post or you come across another technical problem along the course.

All teams are encouraged to install a "112 Suomi" mobile application to their mobile phones. In life threating situations, when using the application to call help, the caller´s location will be automatically transmitted to the emergency center. The application can be loaded to Android ja iPhone phones without costs from application shops.

23. FINISHING PROCEDURE

The finish is located at the Competition Centre. All members of the team must punch in the finish. The competition time ends when the last member of the team punches at the finish.

After the team members has punched at the finish, the team will be quided to the checking point, where the

- seals of the mobile phone and punching card will be checked.
- the gps device will be given to the organizers

From the checking point the team is directed to the results office, where

- the punching card is read
- the punching card is given to the organizers

There will be water and juice available on the finish.

After this the competitors should take all their equipment with them and move to the Yläne school with their own cars. There will be transportation by the organizers to those teams which do not have a car of their own.

On Sunday morning, serving food at Yläne school starts at 07:00. Teams finishing their race between 22:00-06:00 shall eat their food at the Has House in the competition center.

Competition maps are not collected in the finish by the organizers. The competitors may not show the maps to competitors still waiting for their start.

24. CANTEEN

There will be canteen at the Hash House, where team officials and audience can buy food, coffee etc. Both cash and credit cards are accepted.

25. FIRST AID

Each team must have a first aid kit. At the Competition Centre there will be a first aid team on call all the time during the race.

26. WASHUP AND TOILETS

There are showers at the Yläne School to be used after the race. Competitors staying over night at Yläne school, can also use showers on friday night and saturday morning, if needed.

There are toilets at the Competition Centre and at the Yläne school.

27. RESULTS

Results will be published at the Competition Centre and

they will be also delivered to the Yläne school. Results will also be published at the competition www-pages after the race.

28. PRIZE GIVING CEREMONIES

Prizes will be awarded at Yläne School 2 hours after the finishing time of each class.

In 24 h race there will be medals to the three best team of every class.

There will also be some other prizes, the amount of which depends of the amount of competitors in each class.

There is no prizes in the 4 hour open race.

There will be a ballot among all the competitors - the 2 winners of the ballot will receive a Suunto Spartan Ultra Black sport watch. In the 24h MO, WO and XO classes the winners are rewarded with Suunto 3 Fitness Black watches.

SUUNTO SPARTAN ULTRA
Black (HR)

29. USING EXERCISE BENEFITS

Finnish teams can also pay the entry fee with finnish exercise benefits, as follows

- Smartum Exercise and Culture voucher
- Smartum on line payment:
https://oma.smartum.fi/fi/venues/12867
- "Virikesetelit"
- ePassi/sportti, site code: 57015

Using exercise vouchers they must be mailed by registration to the Competition secretary: IVK / Jenna Viherlaakso, Lankakatu 5 C 11, 20660 Littoinen.

All excercise vouchers and payments are personal. You can only pay your own fee with your vouchers.

30. CLIMATE

During years 2014-2018 on
competition area in 24.-25.8,

- the arithmetic mean of the lowest day temperature is 10,7 degrees Celsius, varying between 6,5 and 15 degrees Celsius.

- the arithmetic mean of average day temperature is 15,7 degrees Celsius, varying between 11 and 20 degrees Celsius.

- the arithmetic mean of the highest day temperature is 21,5 degrees Celsius, varying between 16 and 25 degrees Celsius.

According to the statistics of the years 2009-2018, it is more likely to have some rainfall on an August weekend than no rain at all.

Sun sets on saturday 24.8.2019 at 21:02 and rises on sunday 25.8.2019 at 06:04. The duration of the twilight is 50 minutes.

31. PHOTOGRAPHING

The competitors will be photographed by the organizers. The photos will be published on the competition www-pages, Facebook pages and Twitter. With the picture, also the name of the competitor may be published. Photos will also be delivered to the press and they might be used in the advertisements of future competitions. By registration to the competition the competitor allows the use of photographs of him/her to the purpose mentioned above. If a competitor wants to deny the use of photographs of him/her, he/she should inform the competition secretary by email sm2019@turkurogaining.fi latest on friday 23.8.2019 at 18.00.

32. MISSING OBJECTS

If some of your equipment gets lost, you can ask after them by email, sm2019@turkurogaining.fi

33. REGISTRATION, CLASSES AND ENTRY FEES

Registration at http://turkurogaining.fi/sm2019 .

Classes

24h, 24 hour by foot (Finnish Rogaining Championships)
8h, 8 hour by foot
8h MTB, 8 hour mountain bikes
4h, 4 hour public race.

Age classes (24 h)

MO Men open
WO Women open
XO Mixed open
MY Men under 23 years
WY Women under 23 years
XY Mixed under 23 years
MV Men Veteran 40+
WV Women Veteran 40+

XV Mixed Veteran 40+
MSV Men Superveteran 55+
WSV Women Superveteran 55+
XSV Mixed Superveteran 55+
MUV Men Ultraveteran 65+
WUV Women Ultraveteran 65+
XUV Mixed Ultraveteran 65+

8h MTB classes: MO, WO, XO

Entry fees

	Paid by 31.3	Paid by 31.5	Paid by 4.8.
24 h	70 €/person	80 €/ person	95 €/ person
8 h MTB	50 €/ person	60 €/ person	70 €/ person
8 h	50 €/ person	60 €/ person	70 €/ person
4 h	35 €/ person	45 €/ person	55 €/ person

34. RULES AND RULES INTERPRETATIONS

IRF rules with deviations announced by the organizer will apply.

Rules, 4.3.
The only navigational aids that may be carried on the course are magnetic compasses, watches and copies of the competition map. The possession of other navigational aids, including pedometers, altimeters and GPS receivers on the course is prohibited. The possession, at the event site, of maps that provide additional information not shown on the competition map is prohibited.

Rules interpretation in Finnish Rogaining Championships 2019

It is allowed to use gps and other similar devices which do not have any display/screen. If team wants to carry a forbidden device other than mentioned above, it has to be sealed to the same sealing package with the oblicatory mobile phone. Forbidden devices which are not adequately sealed will be removed from teams during the start checking procedure. The organizers may apply checking for forbidden devices also during the race. Removed devices can be picked up from the competition office after the race.

While the competition area has no significant difference in altitudes, it is allowed to use devices which measure altitude differences only via atmospheric pressure.

35. ORGANIZERS & CONTACTS

Organizing clubs:

- Ilpoisten Vuorenkävijät ry
- Turun Metsänkävijät ry.

36. MERCHANDISE

T-shirts can not be ordered after 31.5.2019 any more.

37. ADDITIONAL INFORMATION FOR THE MTB CLASS

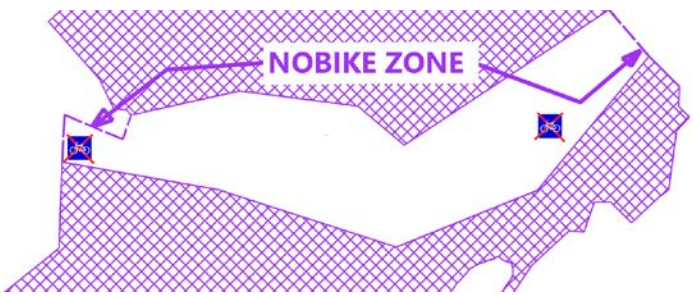
Bike ban in the competition center

Because of the compact size of the competition center, bikes are not allowed in the core of the center. This ban applies also to walking the bikes and carrying the bikes. Bikes are left outside the core of the competition center at a specific bike park. The restrictions for bikes are shown in the competition center map, which is published in Bulletin III.

Bike ban of the Vaskijärvi Nature Park

Bikes may not be taken inside the Vaskijärvi Nature Park, but MTB class competitors may collect the controls inside the park by foot. The bike ban also applies to walking and carrying bikes in the nature park. Bikes must be left outside the park limits.

The starting and ending boundaries of the Nobike zones are marked on the map with purple dashed line as follows:



Start

MTB class start follows the same procedure as the foot classes, that is, without bikes. After the start the teams collect their bikes from the bike park and are free to continue by riding the bikes. The distance from the start to the bike park is approximately 160 meters.

Finish

At the end of the competition, the MTB teams again leave their bikes in the bike park and then continue by foot to the Finish. The distance from bike park to the finish line is approximately 150 meters.

Shoe recommendation

Note that the MTB class is not a typical MTB bike race nor a normal bike orienteering competition in which you can drive all the way to the control. In the rogaining MTB class the controls are the same with the foot classes and visiting the controls typically requires walking/running some hundred meters from the road/path closest to the control. This means that you need shoes that also allow you to proceed by foot in the terrain.

Oblicatory equipment

All oblicatory equipment, also gps tracking device, must be carried on with competitors also when moving without the bike.

Prohibited equipment

The possession of prohibited navigational aids apply also to bike gear. You do not have to remove a distance/speedometer mounted solidly to bike, but you must cover it´s screen for example by tape to prevent it´s use during the race.

38. OTHER SERVICES

An orinteering equipment store (Suunnistajan Kauppa) is located at the competition center. The store is open on Saturday between 07:30-14:00.

39. IDENTIFIERS AND CLOTHES OF THE ORGANIZERS

All organizers will have a Finnish Rogaining Championships ID-card and a FRC 2019 - Turku Rogaining tube scarf. Some organizers are also wearing a Finnish Rogaining Championships T-shirt.

40. JURY

The composition of the competition Jury is as follows:

Chairman	Juha Nappu	Event manager
Member	Juhani Isaksson	Vetter
Member	Vesa Loikas	Representantive of the competitors

Jury can be contacted via Event Manager,
+ 358 40 500 5522, sm2019@turkurogaining.fi
